

### Dimensions (mm)

### Technical Features

<b>Place of Use</b>	Indoors, outdoors (with wing adaptation)
<b>Operating Temperature, Humidity</b>	-20°C/+68°C (opt. -50°C with heater positive), RH 95% non-condensing.
<b>Operating Intensity</b>	100%, 7/24 use.
<b>Body Features</b>	<p><b>Material</b> : 304 grade (opt. 316 grade) stainless steel.</p> <p><b>Finishing</b> : Orbital brushed matt (opt. electrostatic powder coating on stainless steel).</p>
<b>Wing</b>	<p><b>Material</b> : Ø33,7x1,5 mm 304 grade stainless steel pipe with acrylic infill (for indoor use), Ø33,7x1,5 mm 304 grade stainless steel pipe (for outdoor use).</p> <p><b>Finishing</b> : Satine brushed (opt. orbital brushed matt, electrostatic powder coating on stainless steel).</p>
<b>Indicators</b>	<b>Side Status/Direction Indicators</b> :   LED, standard.
<b>Power</b>	<p><b>Operating Voltage</b> : 110/220V AC 50/60 Hz. (±10%), 24V DC.</p> <p><b>Consumption</b> : ~5W at stand-by, max ~40W (varies according to the options and accessories used).</p>
<b>Operating Modes</b>	<p>System operates bi-directionally (entry-exit).</p> <p>Operating modes can be adjusted through the buttons and screen on the control card.</p> <p>Entry - exit controlled   Entry - exit free (with optional photocell)</p> <p>Entry controlled, exit free (with optional photocell)                     Exit controlled, entry free (with optional photocell)</p>
<b>Operating System</b>	Electromechanical motorized operation.
<b>Control System</b>	<p>All functions, parameters and operating modes can be adjusted through the buttons and screen on the control card.</p> <p>All inputs are opto-coupler protected.</p> <p>Controllable by dry contact (ground control).</p> <p>Compatible with all kinds of access control device.</p> <p>Optional RS232, RS485 or TCP/IP module is available.</p>
<b>Flow Rate</b>	Wing opening / closing time : ~1,5 sec.
<b>Emergency Mode</b>	System provides a free passageway (entry-exit) by opening the wing in preferred direction configured by dip switch (fail safe). Works compatible with fire warning and similar systems. At the end of an emergency situation, system returns to its normal operating mode.
<b>Power-off Situation</b>	System provides a free passageway (entry-exit) by manually pushing the wing towards entry or exit directions (fail safe). Optionally, can be set as entry-exit locked (fail secure). Free passageway can be granted by manual override key in fail secure option.
<b>Weight</b>	~33 kg
<b>Optional Features and Accessories</b>	Wireless remote control (receiver-transmitter), manual control, manual override key (with fail secure option), coin slot and coin box, single/multiple intelligent coin/token slot and box, counter (with/without reset), card reader mounting bracket, photocell alarm sensor, heater positive, bottom plate, battery back-up, 316 grade stainless steel, RS232-RS485-TCP/IP modules, limiter, photocell for free mode, top passage indicator, electrostatic powder coating on stainless steel.
